

BILAL

MERN-Stack Developer

Karachi, Pakistan | +92 370 2675457 | bilalali.office.pk@gmail.com | Portfolio | GitHub | LinkedIn

PROFILE SUMMARY

I have completed a Professional Software Development course at Jawan Pakistan, gaining hands-on experience in HTML, CSS, JavaScript, React, Tailwind CSS, Next.js, and TypeScript. Since starting my web development journey in 2024, I have built a strong foundation in modern frontend development through consistent practice and real-world projects, including a Student Management System, a Contact Book Application, and several responsive web applications. These projects strengthened my understanding of component-based architecture, state management, routing, and responsive design. I also have experience with Git and GitHub for version control and focus on writing clean, maintainable code. Currently, I am expanding my skills into backend development with Node.js, Express.js, and GraphQL to build full-stack applications.

TECH STACK

Languages: HTML5, CSS3, JavaScript, TypeScript

Frameworks: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, MongoDB

Tools: Git, GitHub, Responsive Design, Vercel

PROJECTS

JSProjectForge

Next.js, TypeScript, Tailwind, Firebase

A curated collection of JavaScript projects with authentication, reviews, and a contact system — built to showcase frontend development skills and support developer learning.
